ABSTRACT

This publication is a companion report to "Financial Statistics of Institutions of Higher Education: Property, 1972-73, Summary Data," which contains national totals. This volume contains regional and state tables on the value of property owned or utilized by institutions of higher education at the end of the 1972-73 fiscal year. Data were gathered from 2,796 of the 2,947 institutions surveyed. The survey form was part of the HEGIS package for 1973. Data contained in this report are presented in two sets of tables. The first set aggregates all universities with their four- and two-year branches; two-year institutions not connected with a higher level institution are grouped separately. The second set of tables uses a new method of aggregation in which only the university-level institutions are aggregated under the heading "universities." Two- and four-year branches and independent two-year colleges are presented separately. (LBH)

INTRODUCTION

Summary of the Data

The value of property owned or utilized by institutions of higher education at the end of the 1972-73 fiscal year was $67.0 billion. This was an increase of $4.4 billion, or 7.1 percent, over the balance at the beginning of the year.

This property value consisted of physical plant assets—$54.0 billion—and the book value of endowment—$13.0 billion.

Physical plant indebtedness increased 2.9 percent, from $10.5 billion at the beginning of 1972-73 to $10.8 billion at the end of the year. Indebtedness represented 20.1 percent of the book value of physical plant assets.

During 1972-73, the book value of endowment increased 7.0 percent, from nearly $12.2 billion to $13.0 billion, whereas the market value decreased 1.3 percent, from $15.2 billion to $15.1 billion.

Privately controlled institutions reported 82.0 percent of the book value of all college and university endowments at the end of 1972-73.

At the end of 1972-73, the endowment of colleges and universities had an average market value of $2,102 per full-time-equivalent student. The average endowment per student for privately controlled institutions ($6,948) was much higher than that for publicly controlled institutions. ($471).

The value of property owned or utilized by institutions of higher education at the end of 1972-73 was:

Item	All institutions	Public institutions	Private institutions
	In billions of dollars		
Property	$67.0	$37.8	$29.2
Physical plant assets	54.0	35.5	18.6
Book value of endowment	13.0	2.3	10.7
Indebtedness on physical plant	10.8	6.4	4.4

NOTE.— Details may not add to totals because of rounding.

Methodology

The survey form "Financial Statistics of Institutions of Higher Education for Fiscal Year Ending 1973" (OE 2300-4) was part of the Higher Education General Information Survey (HEGIS) package for 1973. A copy of the survey form is shown in appendix E.

The total population of inquiry was 2,947 higher education institutions, with each branch and campus counted separately. Completed questionnaires were available for 2,796 institutions of the 2,947 surveyed—a response rate of 94.9 percent. The population of inquiry and the numbers of respondents and nonrespondents, by level of institution, control, region, and State are shown in appendixes A, B, and C, respectively. The institutions that did not respond or did not provide adequate data are listed in appendix D.

One of two methods was used to adjust for nonresponse. If an institution had reported data for another year, those data were adjusted in accordance with trends established in previous HEGIS surveys and then entered as the institution's report for fiscal year 1973. If no data for other years were available for an institution, peer institution data for fiscal year 1973 were used. Peer institutions were selected on the basis of three criteria: location (State or region), level of institution, and enrollment. Whereever possible, matches were also made with regard to institutional control.

Data Aggregation

Data contained in this report are presented in two sets of tables. The first set aggregates all universities with their 4-year and 2-year branches and all other 4-year institutions with their 2-year branches; 2-year institutions not connected with a higher level institution are grouped separately. The method of aggregation utilized in this first set of tables is the same as that used in previous publications of financial statistics. The second set of tables employs a new method of aggregation wherein only the university-level institutions are aggregated under the heading "universities." Four-year branches of universities and other 4-year institutions are aggregated as "other 4-year institutions;" 2-year branches are combined with independent 2-year colleges and presented as "2-year institutions."

BASIC TABLES

NOTES.—Data are rounded to the nearest thousand. Therefore, a zero indicates that the amount reported was less than $500.

Aggregate United States includes the 50 States and District of Columbia, U.S. Service Schools, and the outlying areas of the United States.

Appendix E.—Reproduction of survey form

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
OFFICE OF EDUCATION
WASHINGTON, D.C. 20202

HIGHER EDUCATION GENERAL INFORMATION SURVEY

FINANCIAL STATISTICS OF INSTITUTIONS OF HIGHER EDUCATION FOR FISCAL YEAR ENDING 1973

INSTRUCTIONS AND DEFINITIONS

GENERAL

To avoid unnecessary overlapping of Federal surveys of the finances of your institution, this survey is designed to include the financial statistics previously collected by the U.S. Department of Commerce, Bureau of the Census Form F-15.

The definitions and instructions used here are compatible with those in **College and University Business Administration, Revised Edition,** published by the American Council on Education, One Dupont Circle, Washington, D.C. 20036.

Please attach supplemental information, comments, etc., on a separate sheet.

Please examine the definitions and instructions. If you need additional clarification on any of the items, please call Mr. Paul F. Mertins at (202) 962-7301, in Washington, D.C.

Data requested on this financial survey are for the fiscal year of your institution.

Data for your institution which are not kept on the books of account of your institution, but are kept on the records of another organization or agency for your institution, should be included *(e.g., State schools should report or estimate the value of physical plant even though records are maintained by a State agency).*

Exclude agency funds; i.e., funds handled by the institution in a custodial capacity only *(e.g., funds for student organizations).*

All data reported should be whole dollars only--omit cents.

Please complete this survey and return it to the U.S. Office of Education, National Center for Educational Statistics, ATTENTION: Room 2164-HEGIS, 400 Maryland Avenue, SW., Washington, D.C. 20202, not later than October 31, 1973.

NOTE: *This year's form is in six parts. For any item in any part where exact data do not exist, please give estimates. Items referenced in specific instructions below will be referred to by their line numbers.*

SPECIFIC

LINE 2. Report all tuition and fees assessed against students for educational and general purposes. Include here those tuition and fees which your State collects and returns in the form of State appropriations. Tuition and fee remissions or exemptions should be assessed and reported as student fees revenues although it is not intended to effect collection from the students. A corresponding amount, as well as the amount of other student aid granted out of current funds revenues, should be shown as expenditures of student aid grants *(Part B, Line 11).*

LINE 3. Governmental appropriations include all amounts received from governmental sources that are expendable for educational and general purposes. This item is the sum of Lines 4, 7, and 8.

LINE 5. Report Federal payments channeled through State finance agencies.

LINE 9. Report income from investments of restricted and unrestricted endowment, term endowment, quasi-endowment funds, Federal and State land-grant funds *(land-grant institutions),* and income from funds held in irrevocable trusts by others.

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: *(1)* an institution having two or more campuses responsible to a central administration *(which central administration may or may not be located on one of the administratively equal campuses)* or *(2)* an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus *(sometimes called the parent institution)* is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis *(i.e., has a relatively permanent administration)*, which offers an organized program or programs of work of at least 2 years *(as opposed to courses)*, and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.
